## TECHNICAL DATA

|                |                                                                                                                |
|----------------|----------------------------------------------------------------------------------------------------------------|
| Input voltage  | 12 - 24 Volt DC                                                                                                |
| Output voltage | 12 - 24 Volt DC                                                                                                |
| Wattage        | max. 108 Watt at 12 Volt DC<br>max. 216 Watt at 24 Volt DC                                                     |
| Frequency      | 433.92 MHz                                                                                                     |
| Type           | 300 mm mains lead with LED plug<br>200 mm lead LED distributor 3 - fold                                        |
| Radio range    | approx. 40 - 50 m in open area, reduced by obstructions e.g. metal or walls                                    |
| Dimensions     | 135 x 30 x 20 mm                                                                                               |
| Housing colour | white                                                                                                          |
| Installation   | screw fixing                                                                                                   |
| Remarks        | Radio receiver serves for the control of LED modules up to<br>up to 10 radio receiver per radio remote control |
| IP Code        | IP20                                                                                                           |
